Measurement Tips:

Chest: Measure around the largest part of your chest. Be sure not to pull the measuring tape too taut.

Bust: Measure around the fullest part of the bust, across your shoulder blades.

Waist: Measure around your natural waistline and be sure the measuring tape is taut.

Hips: Stand with your feet together and measure your hips, which is the widest point. Your hip measurement is usually the fullest part of the bottom or at the top of the thigh.

Inside Leg: Measure from your crotch point at the inside leg to the point where you would like your finished trouser length to be. For this we would advise wearing a pair of trainers.

Please note these measurement are body measurements. The fit of our clothes depends on the cut, fabric and the style of the garment.
